

## Organs

Your task is to select one of the organs from the list below, find five facts about this organ (including illnesses, images and odd observations) then write the information as a document that will be printed out, cut to size and stuck on a giant organ poster.

brain	stomach	lungs	heart	
gall bladder & bile duct	large intestine	anus & rectum	skin	
ears	small intestine	muscles	mouth	pancreas

Now choose a second organ and find five facts that can be printed out.

---
